Discography compiled by tony rees, February-March 2001, with additions by Garry Gillard (who first turned it into html) and thanks to Bob Blackman, whose own discography (which he was kind enough to share) is in sing out! For May 2001.

The following sources were particularly helpful:

For historic BBC sessions: on-line catalogue, National Sound Archive, London, and Dave Bland's detailed notes (with Mike Yates' discographical assistance) to the 4-lp song for every season box set. For album details and tracklists: the folk index; the complete topic records discography by Mike Brocken, Alistair Banfield & Rod Stradling; Peter Kennedy's folktrax on-line catalogue; plus information previously held on Garry Gillard's coppers website (now this site!), 1998 Onwards. Various album sleeve notes and track lists.
